

Hydro-Pro 150® Spray Nozzle

Heavyweight performance in a lightweight design!

The Strahman **Hydro-Pro 150®** is constructed with a stainless steel housing for strength and durability, yet this solid, water saver spray nozzle weighs less than two pounds, and is ergonomically designed to reduce user fatigue. In addition to being extremely lightweight, the **Hydro-Pro 150®** features a patented, locking trigger mechanism that allows users to lock in a desired spray pattern without having to maintain pressure on the trigger. It also reduces misdirected spraying.

Equipped with a waterproof nylon cover that resists cracks and abrasions, this rugged nozzle lasts for a long time and stays cool even when using water as hot as 200°F. It is the most advanced spray nozzle around — and it is only from Strahman!

Shown: Black Hydro-Pro 150

Shown Below: White and Red Hydro-Pro 150

Specifications

- ♦ **Maximum working pressure** 150 psi
- ♦ **Maximum recommended operating pressure** 200°F/93°C
- ♦ **Flow rates:** 5-7 gpm (50-80 psi)
10 gpm max at 150 psi
- ♦ Available: black, white or red cover
- ♦ Available with or without swivel adapter

NOTE: Intended for water use only.
Not suitable for steam service.
